may hereafter become very essential, although

at present almost superfluous in this colony.

The reserve of legal tender coin not less than

one third part of the total amount of notes

issued is a tangible security that so far as it

goes is most satisfactory, and coupled with

the prohibition against issuing notes in excess

of the paid up capital of the bank issuing,

is as good a security against any undue issue

of notes as can be required. The provisions

for publication of the amount of paid up

capital and for the inspection of the books

and the coin reserve of Banks of issue given

in the notice of motion, are a guarantee for

the stability of banks of issue, which the

public are certainly entitled to in a colony,

where for many reasons the business of bank

ers must be carried on on different principles

from those which govern English Banks of Is-

sue. The same reasons which render the pub-

lications of the reserve in the Bank of England

necessary, apply to all Banks of Issue in

colonies; without it there cannot be that im-

banking business. The penal clauses of Mr.

Young's amendments are simple and com-

prehensive as a whole, and so far as a hasty

perusal of its clauses will enable us to judge

the Bank Note Act with the new amend-

ments will be a very respectable specimen of

The City of Victoria.

CENTLEMEN,—In accordance with a pledge of given by me at the last general election, I again present myself before you as a Candidate for your suffrages. On the last occasion I withdrew from the field contrary to the wishes of many of the electors; but from the earnest desire to benefit the liberal party whose principles I profess. My views as then placed before you, remain unaltered. I was then and still remain a staunch advocate of all liberal measures, and a streauous opponent of all "Government and other jobbers," I have settled in this Colony with my family with the intention of making it my future home. I have invested largely and an consequently largely independant of either party or seet, and should you honor me by returning me as one of your mombers, my endeavors will be directed to the obtaining of a more equal and just system of transition, to the defence of the freedom of the Part of Victoriain all is integrity, to the establishment (on just terms) of Direct Mail Communication with the Mother Country, to the opening up of Roads throughout the Island, and to the due encouragement of all enterprises called to the evelop its Mineral and other resources. Upon the general interests of the constituents alone I take my stand. I shall not canvass at all, and should it be your opinion that a better man presents himself, I shall not offer any factious opposition, and I hereby challenge my opponents, whever they may be to call a public meeting cither at the Theatre of the property of the position of the position, and I hereby challenge my opponents, where we may have an opportunity of exponenting our views, and then may the best man win.

You and all of us are deeply interested in the prosperity of our colony; my legislative efforts shall be earnestly directed to its promotion in every possible manner.

Our Free Port system gives importance to our commerce and attracts capital into the country, which is so greatly needed for the development of its valuable resources, you may rely that I shall oppose any attempt that may be made for political or other purposes to undermine or destroy it. I shall support the enactment of liberal Mining Laws in order to encourage the working of our Mines and the active employment of labor.

I shall support a new Act of Incorporation for the City of Victoria and uphold the Mayor and Council and those acting under them in their official proceedings.

As to making banking as free as the provision trade, as was advocated by the honorable second member for the city, he thought it hazardous in the extreme to allow paper money to be thrown on the public without a sufficient metallic reserve. The public have no means of knowing the real position of issuers of such money, and we have often seen bankers, whose paper was taken by everybody totally upset by the slightest

Mr. Duccan was not prepared to answer the cuestion. year. The following extract shows that the Irish emigration is setting towards America,

The number of persons leaving for Australia and other British settlements becomes less every day, which can be comediated and other British settlements becomes less every day, which can leaving for Australia and other British settlements becomes less every day, which can
